

PDE Programmes For Schools

Jan - Jun 2011

A) Assembly Talk

This is a 30-45 minutes talk presented by experienced Narcotics Officers from the Central Narcotics Bureau. With more than 10 years' experience in fighting the drug menace, our officers are passionate of their mission and are keen to share with the young generation the dire consequences of drug offences. The talks, injected with **visually impactful slides**, are **customised** in terms of the target audience to better relate the anti-drug messages to them. There is usually a **quiz or question-and-answer session** at the end.

B) Sharing Session

Different from the Assembly Talk where our officers present to a large group of students, sharing sessions are conducted with a **smaller group**. This allows our officers to better engage the students at a **more intimate level** to facilitate more in-depth exchanges. We are also able to invite **ex-drug abusers** to share at these sessions to reinforce the severe consequences of drug abuse.

NOTE: Students who have attended the Assembly Talk need not attend the Sharing Session.

C) Static Exhibition

To complement the talks, an exhibition is an effective way for students to internalise the anti-drug message. The static exhibition comprises **mock drug exhibits** with explanatory texts on the types, effects and penalties of drugs.

NOTE: 'Drug BUSTers!' is currently undergoing refurbishment and is not available for exhibition.

D) Talk for Parents

Through schools, we also hope to reach out to parents of the parent-support groups. PDE talks are developed to share with parents on issues relating to drug abuse, such as **tell-tale signs and myths** about drug abuse.
