

Design your own anti-drug hand sanitiser!

ADVERTORIAL

If you could sketch the look of your own hand sanitiser, what would it look like?

In 2019, a group of youths came together for a one-day event where they handed out hand sanitisers with the tagline "Your Life Is In Your Hands" to members of the public to spread the drug abuse prevention message. It was an initiative conceptualised by Javier, an Anti-Drug Advocate.

You can cut along the dotted lines and paste the icons to the illustration.

You can choose from these reminders to add to the design of your hand sanitiser:

- Stay healthy!
- For a Drug-Free SG!
- Stay safe, stay drug-free!

Want to say something else? Be creative and add your own drug-free message!

DID YOU KNOW?

The design of the hand sanitiser incorporates the colours of the anti-drug ribbon – green and white – which signify health, vitality and strength. Spread the anti-drug message to your family and friends for a Drug-Free Singapore today!
